THE NORTHERN MAILS are still irregular, owing to the pranks which the late heavy snow storms have played along the routes of travel. The Saturday New York mail, due yesterday, failed to arrive, but we received the mail of the day previous, which should have reached us on Sunday.

A Postoffice has been established at North Santee, Georgetown District, and a mail passes between it and Charleston once a week, each way, closing at the Charleston Postoffice on Tuesdays, at half-past 9 o'clock, and leaving North Santee for Charleston on Fridays.

MASONIC ELECTION AT FLORENCE .- At the annual communication of Amity Lodge, No. 121, A.: F.: M. .., held at Masonic Hall, Florence, S. C., on the night of December 11, 1867, the following officers were elected to serve for the ensuing Masonic

PETIT LARGENY .- Morris Brown, an enterprising freedman, wishing to improve his standing in society, stole a pair of shoes, but was discovered and sent to the Guardhouse. Allen Jackson and William Wilson, both highly

colored, were charged with adorning themselves with stolen raiment, some of the missing property being found upon them. The charge was made by Daniel Alston and Thomas Riggs, both colored, they stating that the theft had been committed on B. Roddins' boat, at Southern wharf, while the owners of the clothing were absent. They had a hearing before the Mayor this morning. A NARROW ESCAPE. - In passing the curves of

This fact is generally known, and all persons avoid the track when the car is heard; but yesterday a school boy endeavored to run across the street, at the corner of King and | Counts, Alfred Ayer, R. The exertions of the driver, Hogan, were and child, S. C.; T. J. M. Davis and wife, Clarenbarely sufficient to stop the horse, and the wheels were in a few inches of the boy's head before this was effected. If the driver had been less prompt in his movements the car would have pased over the boy, and, in all probability, caused his death.

sooner released than he resumes his habit of pilfering, and in many cases becomes an expert in his calling. Nothing comes amiss to these professional thieves, but we were surprised yesterday to hear a complaint made by a citizen that the light-fingered gentry had been removing the brick from his sidewalk. What can be the object of this raid it is difficult to say, as burnt bricks are plentiful, and the sale extremely limited, but it would be useless to endeavor to find a cause for the theft. It is a morbid disease that appears uncontrollable, and can only be prevented by the vigilance of the police.

Poor fellows! they cannot help themselves. They are beset by the sweetest and prettiest of pretty girls, and asked in most bewitching smiles, "to take a grab," or a "chance," etc. Who would not like to take a chance under such auspices? Everything passed off pleasantly again last night, and the crowd in attendance was larger than ever-a perfect jam-notwithstanding the Japanese attraction at Hibernian Hall. The beautifully illumina ted arch over the doorway looked cheerfully; so did the large and splendid iced fruit cake, won at Mrs. Col. Ringgold's table "for the News Office," which, as a sweet messenger from the Christmas Tree, spread joy and gladness in the dark regions of type and printer's ink. The United States Band discoursed sweet music, greatly enlivening the oc-

WIDOWS' HOME BAZAAR. - A number of ladies of this city, whose hearts continually prompt them into sections, each capable of holding four to do good and generous deeds, seeing much misery and suffering around them, cast about to these unfortunates. The Bazaar has been organized to further this charitable purpose. The ladies who have it in charge have been unwearied in their exertions for weeks and months preparing for this exhibition, and we doubt not, when it is thrown open to the public this evening, the visitors will be delighted with the brilliancy of has been used, but all are clean and fresh. We commend this noble charity to ail our friends and fellow-citizens, and hope that the good ladies who are so zealously engaged in this good work may be made glad in the rich harvest they may reap of their labors.

THE JAPANESE JUGGLERS last night attracted a youd audience, considering the tightness of the times. At the appointed hour the curtain rose and disclosed the Japs in their national costume. The boys All Right and Dan Webster indulged in ground and lofty tumbling that would have made the most experienced circus actor blush. This troupe is the only one in America that has Japanese women, who in their strange and picturesque garb, with the si gular looking instruments from which they extract what, to Japanese ears, is most delightfui music. The suspension act, by the celebrated Kee Chee brothers, in which one suspends himself by the feet from a small trapeze near the ceiling, and holds in his hands a long bamboo pole, upon which his two brothers perform all sorts of marvellous feats, is well worth seeing. The top spinning was one of the most attractive and marvellous features of the exhibition.

Aside from the wonders of the performance, the peculiar native music, and the intelligible remarks volunteered by the master of ceremonies, were listened to with great pleasure. It is an entertainment in which interest is kept up from begin- terday we were surprised to find that our old ning to end. THE BALL FEVER.-This disease, which first attacked the American public in the shape of base ball on the brain, has gradually changed some of which will be seen in our columns this morning. its symptoms, though the ball is still kept moving. The bat has been exchanged for the shinnie stick, and instead of hurling the ball through the air, it is now skimmed along the ground, propelled by the above mentioned shinnie sticks. These sticks are not unlike a wee bit of shillelah, with a crook at the end, which is used to catch the ball and set it in motion, and they are the favorite weapon of a host of mixed juveniles, who indulge in the fascinating shinnie game. The burnt district is the playground for the youthful ballists, and from early morn to dewy eve the voices of the contending factions may be heard sounding far above the clack of shinnie sticks. The fashion of this world passeth av ay, and though the noble game of shinnie is now the rage, and Young America seems determined to go on with the ball, it may soon be brought to a close, and the shinnie sticks laid on he shelf for a season.

THE STREET RAILBOAD. - The 17th of December, 1867, is the first anniversary of the opening of the KLEPTOMANIA.—The propensity of the freedman street railroad in Charleston, an enterprise that to appropriate the property of others seems unis no terrors, for he is no mooted in Charleston, but it was always consider ed a dangerous innovation on old customs, and it was only since the war that the present company succeeded in obtaining a charter and permission to commence operations. Their exertions in behalf of the public are well known, and the success they have attained is the reward bestowed by their grateful constituents. Since the road was first opened, the Rutledge-street line has been improved, and the route to the Battery completed. New cars have been added, and every effort made by the President and managers to add to the comfort of the travelling public. HOLIDAY GIFTS .- Von Sauten's Bazaar well deserves its name, for it contains every article that is rare and curious. A glance at his stock assured us that he would have no difficulty in pleasing all of his customers, for his stock is large, and comprises every variety of fancy goods, toys, gifts, &c. Among the curious games which Mr. von Santen has introduced from Germany is the hiero glyphs, which has been pronounced the mos wonderful, beautiful, and instructive home game and puzzle ever invented. We have seen the key, and can assure our readers that this is even so. By correctly grouping together the prominen objects in each picture, a given word is invariable pronounced without the employment of a single, letter. A key, and all necessary instructions accompany each box. We shall not explain the hieroglyphs, but leave

it to those who think that they can obtain fifty cents' worth of enjoyment by investing in a box. Mr. von Santen has every variety of toys, fancy goods, &c., that are suited for Christmas gifts. and the friends of Santa Claus should not forget to visit his headquarters.

For restoring strength and appetite, use the great Southern Tonic, PANENIN'S HEPATIC BITTERS and you will not be disappointed. For sale by all druggists.

King Winter has waved his sceptre over the land, whitening the earth, bridging the streams, and turning the water-falls to pendant crystal. Upon animated a well as inanimate nature, the frigid atmosphere produces of the body back upon its inner fountains, and Chills and Fever, Rheumstism, Pulmonary Diseases, Bilious ness, and unplessant disorders of the stomach and bowels are apt to be the results. Now, what is required to fortify the system against

the attacks of disease thus engendered? Clearly a TONIC, which, acting through the stomach upon the circulation and the nervous system, shall redetermine the vital fluid to the surface, and brace the nerves of motion and sensation. But this is not all that is required. With the TONIC must be combined such ALTERATIVE and REGULATING agencies as will tend to keep the whole animal machinery "in good working order.

These three grand requisites of a Winter restorative exist, in their fullest perfection, in HOSTEITER'S STOMACH BITTERS, which are compounded of the purest vegetable stimulants and extracts, of the mos genial and healthful roots, barks and plants that the herbalists and botanists of the world have yet discovered.
